FLORIDA'S HEALTH CENTERS – STATEWIDE REACH

Florida's Community Health Centers are **the cornerstones of care**, especially in rural and medically under-served communities:

More than 1.7 million Floridians use a community health center annually.

- Florida is home to **over 50** Federally Qualified Health Center (FQHC) organizations, operating **over 750** service sites
- Florida health centers save the state **billions in avoidable ER visits and hospitalizations**
- CHCs in Florida are leading efforts in:
 - Expanding access to dental and behavioral health
 - Responding to public health crises
 - Closing the primary care gap in rural regions

COMMUNITY HEALTH CENTERS – 2024 NATIONAL REACH

WHY IT MATTERS IN PASCO & HERNANDO

Premier Community HealthCare ensures community members of all ages and stages of life have access to comprehensive, high-quality care.

Our work reduces barriers, improves health outcomes, and supports community wellbeing throughout West Central Florida.

Since 1979, Premier Community HealthCare (PREMIER) has been a beacon of compassionate care, rooted in the heart of Dade City, Florida.

What began humbly over 4 decades ago as a single health center has blossomed into a network of multiple locations and mobile dental units spread across Pasco & Hernando Counties. Throughout the years Premier has served Patients from every walk of life, embodying a commitment to excellence and community.

As we celebrate another year of mission-driven care, our commitment to our patients shines brighter than ever, as a testament of the unwavering dedication to the well-being of all that we serve.

2024 HIGHLIGHTS

4th Annual Community Impact Breakfast

The success of our Community Impact Breakfast brought together over 300 guests in a powerful display of support. Together, we raised awareness and essential funds for patient care services at our health center.

Opened New Pediatric Dental Site

The Grand Opening of the Summit Pediatric Dental Center marked a pivotal collaboration with the Florida Department of Health. Together, we're paving the way for healthier futures for women and children in Pasco County.

Powerful Partnerships

A \$10,000 grant from Gulfcoast North AHEC, Inc. supported the launch of Tiny Teeth Matter and the addition of a new team member, our dental mascot - Dr. Flossy. This initiative partners with the Early Learning Coalition of Pasco/Hernando to deliver oral health education and preventive dental services to preschoolers.

Quality Award

Premier was honored with the HRSA Advancing HIT for Quality award, showcasing our commitment to integrating cutting-edge technology into healthcare.
