PATIENT GROWTH

DEDICATED TO **QUALITY.**

Quality improvements from 2017 – 2018

“Quality care that you can rely on.”

- **Zerah P.**
New Port Richey
Family Health Center

+13%

64% of all diabetic patients were seen at least twice in 2018 and had a HbA1c less than 9.

+8%

83% of children had BMI percentile documented and their families received nutritional and physical activity counseling.

+4%

37% of patients 50–74 years old who had a minimum of one medial visit during current year, had appropriate screening for colorectal cancer.

“Everyone was accommodating and friendly, I am excited to share my wonderful experience with my new community.”

-**Spring Hill Family Health Center Patient**
