

Here We **GROW** Again.

Starting September 14, 2020 Premier will offer pediatric dental services in three new facilities across Pasco County.

LITTLE ROAD

COX
ELEMENTARY

MOBILE
CLINIC

Formerly owned and operated by the Florida Department of Health – Pasco County, this expansion for Premier Community HealthCare has generated a buzz among patients, partners and community members. In addition to providing expanded access to oral health care services through school and community partnerships, Premier continues to ensure that all children/youth have a dental home for comprehensive dental care.

We are pleased to welcome six new Care Team Members to the Premier family. These skilled dental experts augment our team with years of experience and services in Pasco County.

In effort to synchronize branding and uplift the patient experience, phase one of the expansion includes marketing, interior and exterior signage and splashes of our recently implemented “Under the Sea” pediatric dental branding.

Healthy Teeth. Healthy Mouth. Healthy Body. Research indicates that maintaining good oral health has value beyond the obvious. As we continue to strengthen our care model for integration of dental and primary care, the addition of these new facilities will provide even greater access to affordable and high-quality dental care.

FAQs

1. Will there be a grand opening event?

- Yes. Details are forthcoming.

2. Is the Cox Elementary location open to the general public?

- No. This site is school based and will be available to the Pasco County students only

3. What is the age range for these new facilities?

- 0 – 20 years old.
