Medical Home

A Patient Centered Medical Home is not a building, house or hospital, but rather an approach to providing total health care. A Medical Home is called a "Home" because we'd like this office to be the first place you think of for all your health care needs.
I choose to participate in the Patient Centered Medical Home program.

Release of Information

Protected health care information may be released to any person or entity liable for payment on the patient's behalf in order to verify coverage or any other purpose related to benefit payment.

If I am covered by Medicaid, Medicare or other Health Plan, I authorize the release of protected health care information to the appropriate agency for payment of the claim. The information may include, without limitation, history and physical, emergency records, laboratory reports, drug and alcohol treatment and discharge summary.

Federal and state laws may permit this facility to participate in organizations with other health care providers, insurers, and/or health care industry participants and their subcontractors in order for these individuals and entities to share my health information with one another to accomplish goals that may include but not limited to: improving the accuracy and increasing the availability of my health records, decreasing the time needed to access my information, continuity of care; and such other purposes as may be permitted by law. I understand this facility may be a member of such organizations. This consent specifically includes information concerning psychological conditions, psychiatric conditions, intellectual disability conditions, genetic information, chemical dependency conditions and/or infectious diseases including, but not limited to, blood borne diseases such as HIV and AIDS.

Sliding Fee Discount Program

PCHG offers a sliding fee discount program (SFDP) based on a patient's ability to pay for services. The SFDP is established and implemented to ensure that uniform and reasonable fees and discounts are consistently and appropriately applied to all health center patients to address financial barriers to care. Eligibility for the SFDP will be based on income and family/household size.

PCHG does not and cannot require individuals to enroll in public or private insurance and this is not a factor when determining eligibility. However, PCHG educates patients based on their eligibility for public or private insurance for which they might qualify.

Patients that provide documentation and qualify for the sliding fee discount program will remain eligible for the program for 1 year. Those patients that qualify using the Financial Self-Assessment form will be valid for up to 30 days to 1 year depending on eligibility. Patients may reapply, before expiration, for the sliding fee discount program anytime there is a change in income and/or household size. After expiration patients will be reassessed for eligibility for the SFDP.

After Hours Non-Emergency Services

Patients have after-hour access to on-call Premier providers 24 hours a day, seven days a week through an answering service by calling **(352)518-2000**. For medication refills please contact your pharmacy or Premier during normal business hours.

For emergency services call **911** or go to the nearest hospital emergency room.
